

WEDNESDAY, OCTOBER 10, 1962

OUTLOOK FROM THE EDITOR'S WINDOW.

GOVERNMENT'S NATIVE "POLICY."

1. The first step in the process is to identify the problem. This involves gathering information about the situation and understanding the needs of the stakeholders involved.

Natives and Agriculture

Sugar Convention

EFFECT OF WITHDRAWAL ON NATAL

The "BANK" South Africa Report (article in the 1988 issue) is good to read.

It is welcome confirmation that the implementation of the proposed environment model is not based on a naive understanding of the situation in South Africa as an isolated case because of the changes. Thanks to the foresight and determination of W. K. Timmermans the beauty of the project is visible to the broader African community. It is good to hear that with the new management the project will be able to work in the long run. It is hoped that the project will be able to continue to work in the long run.

Very truly yours,
W. K. Timmermans

Trade Return

TO THE COMPETITIVE AREA

The September returns of commercial trade forwarded from the ports in the Transvaal compliance area show that the percentage forwarded from Durban was 44.75 per cent, a further jump of 15 per cent from the same average for the previous month of the year of 29.75 per cent. The percentage from Delagoa Bay for September was on the other hand 12 per cent, a fall of 15 per cent. These unusual figures were due to two circumstances, the forwarding in the last week of 1914 of cargoes from Bulwer in Zululand, Mr. Hoskin's dynamite factory, and the general resumption of traffic to take advantage of the reduced rates operating from all the ports on the 1st inst., which was loading has been proportionally greater at Delagoa Bay.
